

BBS STRONGWALL INSTALL / DISMANTLE INFO

Bases are marked 'Front' or 'F' on one side

Working from the 'front', lay out bases from left to right

Ensure that heel of base is located over the hook of the previously placed base

Attach orange sections from right to left, making sure that the sections are locked into each other and pushed firmly into the bases

NOTE: Orange sections and bases have a round end and a square end. Sections will only fit into bases one way round

Completed fence

To dismantle reverse the above process

Mesh panels can be fitted

Hire Stock: Each mesh panel spans 2 Strongwall barriers & is secured in place with a coupler

Purchase Stock: Each mesh panel spans 1 Strongwall barrier & is secured in place with a coupler
